

This patch program helps the participants use their creativity and reuse any other items you would like to place on the tree.

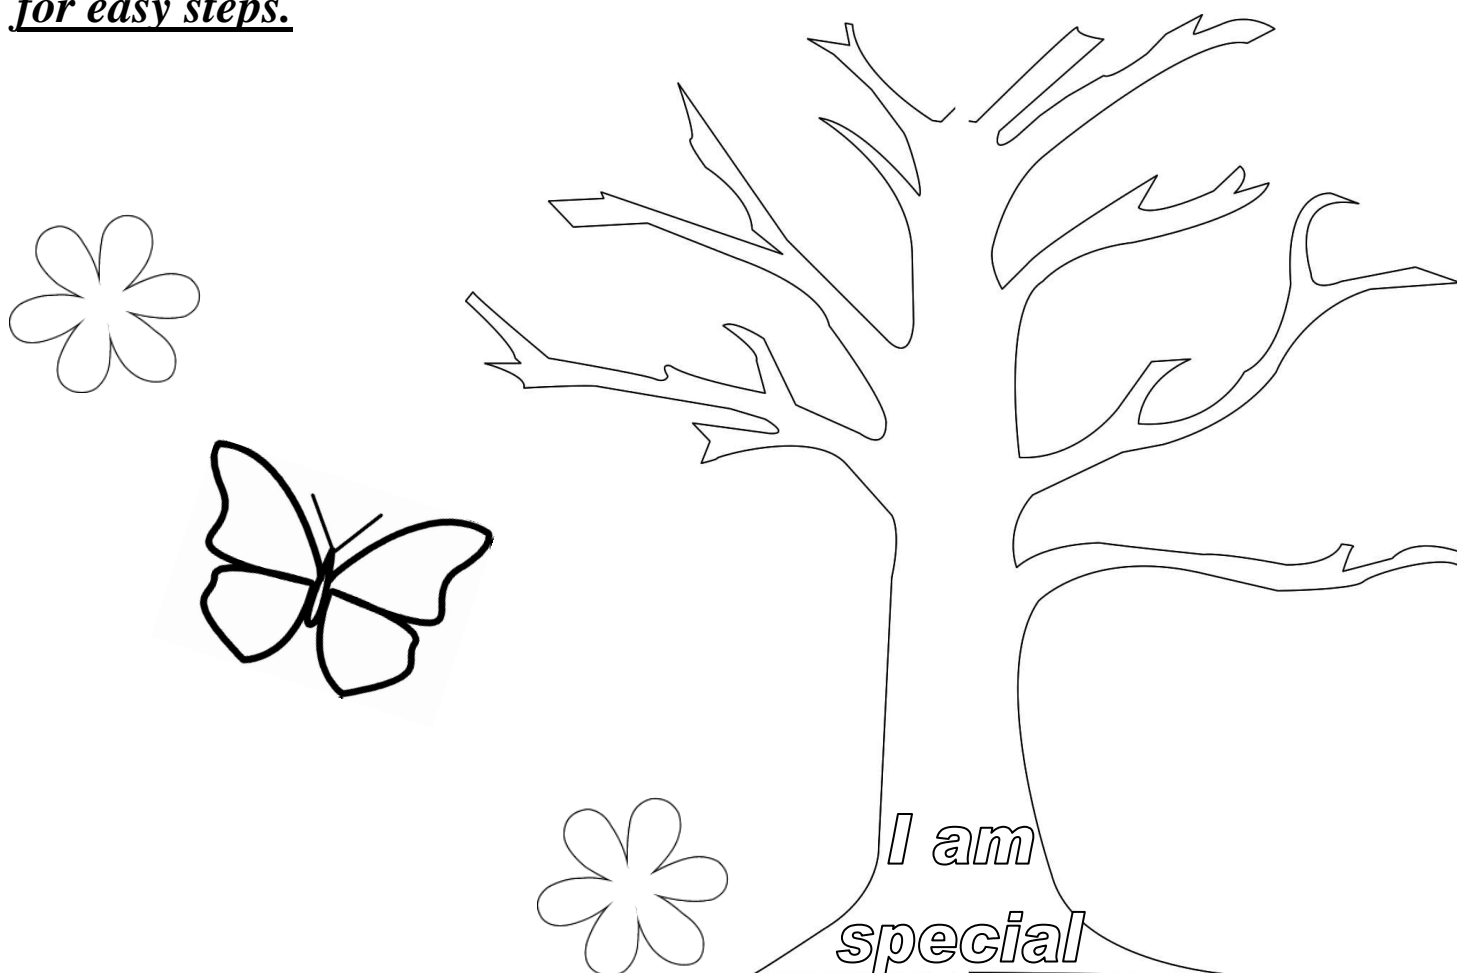

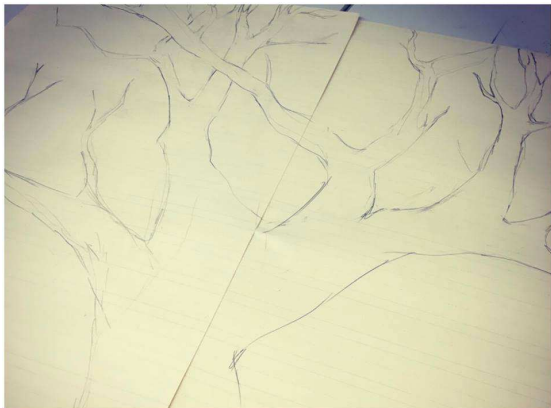

Tape the tree together in the middle.

Decorate the tree with any item you would like to show your creativity and imagination. Make a statement with your decorative leaves or flowers. Use the leaves with the lettering on them or create your own colorful leaves with messages or artistic views.

Add butterflies and other items in the background to create your own unique forest tree.

Working in large groups? You can create a large version of the tree using brown grocery bags, poster board, or butcher paper. *See next page for easy steps.*

Step 1: Create Your Tree

Step 2: Print, cut & decorate your leaves

Step 3: Outline your tree & assemble & glue leaves

Step 4: Put finishing touches & hang it up!

Step 5: Get an awesome patch!
