

## Parts of a Tree and What Can One Tree Do?

Add animals and other living things to the tree. What kind of tree do you want it to be? Color the tree and label the parts of the tree from the word box.

### What can one tree do?

- Provides a day of oxygen for 4 people
- Lifts water from the ground and releases it in the air
- Keeps soil from washing away
- Creates homes for animals
- Provides shady area to relax
- Provides food to eat [apples, peaches, bananas, nuts, and syrup]
- Place to play and build a tree house

## RECYCLE CHART

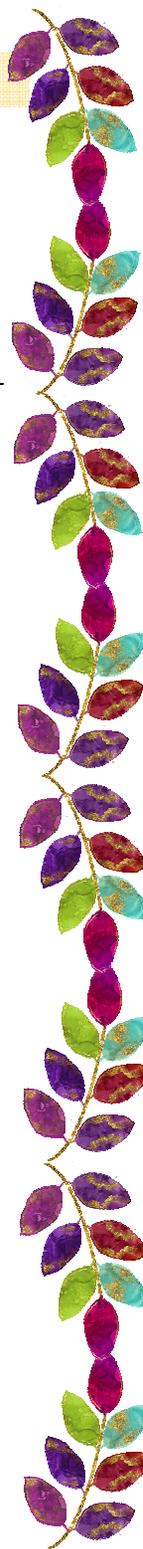

Keep track of the number of items you recycle in a week.

Did you know that an average family usually throws away one ton of trash a year? Most of the trash in the average garbage can be recycled instead of being thrown away. If you recycle your products, we can cut down on the amount of trash in the landfills and the price of products we use daily. If you already recycle then you are already one step closer to protecting our planet.

To start recycling you usually need to sort the items in groups. Boxes should be flattened and plastic, glass, and aluminum containers should be washed out.

The below chart will assist you in keeping track of your recycled items

DAY	# of Plastic products	#of glass products	#of paper products	#of aluminum products	Other
Sunday					
Monday					
Tuesday					
Wednesday					
Thursday					
Friday					
Saturday
