

## DECORATE YOUR OWN CLOWN OUTFIT.

**Clowns** are comic performers that wear colored wigs, stylistic makeup, brightly colored costumes, ruffled collar, large footwear, and red nose, to entertain the audience. Typically the make up that is used for clowns is called "clown white" makeup to cover his or her entire face and neck. Though today some clowns use little make-up and choose to dress up more vibrantly.

If you want to make a clown outfit you can use things found around your house. Large shirts, bright colored tights and hats.

### Ingredients in clown make-up:

- 2 tsp white shortening
- 5 tsp corn starch
- 1 tsp white all purpose flour
- 3-4 drops of glycerin\*\*

Using a rubber spatula, blend the first three ingredients on a plate until a smooth paste is formed. Add 3-4 drops glycerin for a creamier consistency. There should be enough in this one batch to decorate one child's face. When applying the make up to the face you will have better results if you stroke in one direction. For easy removal use shortening, cold cream or baby oil.

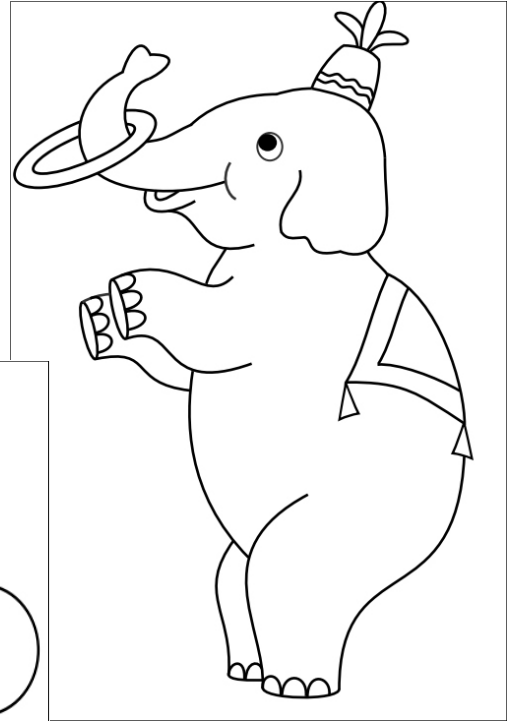

**\*\*Glycerin** It is colorless, odorless, and a thick liquid used to make clear soaps and moisturizing cream.

# CIRCUS ANIMALS

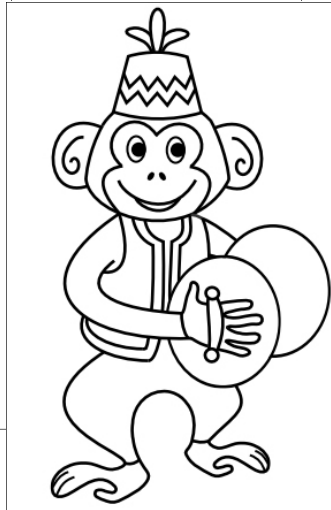

Arabian Horses are riding horses used at carnivals. The term "living carousel" presentation consists of eight high-stepping Arabian horses and eight black Shetland ponies performing together. Sometimes girls ride on their backs.

Asian and African elephants perform for the audience. Sometimes a lady in a pretty outfit rides them in the ring.

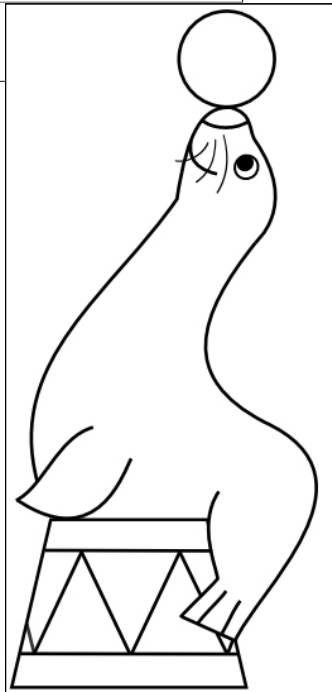

Monkeys are intelligent animals and can be trained to do many tricks like playing an instrument or being acrobatic.

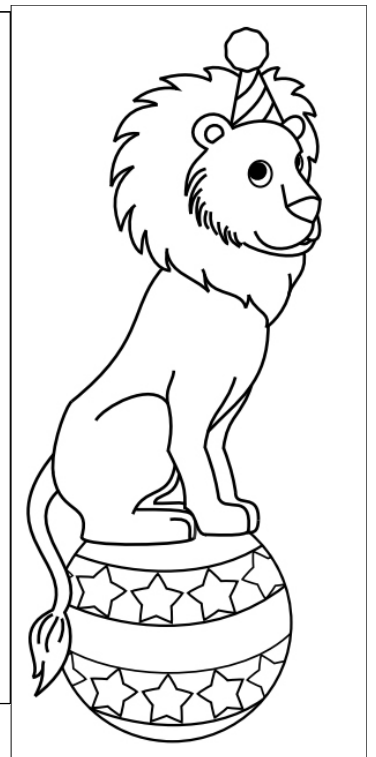

Tigers are Asian cats that have great eyesight and balance. They perform in groups or alone.

Dogs are trained to jump through hoops and run around doing tricks.

Seals live in land and water. They can bark and are trained to do tricks like balance balls on their nose.

Lions are large cats mainly from Africa. They have a mane around their face. They are tamed to do tricks.
